

HANG VUONG

UNIVERSITY OF JYVÄSKYLÄ

EXECUTIVE SUMMARY

I am a travel lover and a free thinker. I love new challenges and I am eager to learn new things. I have strong interpersonal skills so I find myself easily making friends and seeking emotional connections from new people. My friends said I can "talk to almost any person I meet and can hold the conversation that I have no prior knowledge about".

I have been studying in 4 countries including Vietnam, Japan, Poland and Finland with 6 different schools. By studying and staying in one country for more than one year, I can best learn about the language and culture of that country. I have also travelled to over 20 countries and be able to greet and count in several languages.

I love singing, traveling and creating content like photography or video production.
